

* LUBRICANTS *

Lithium Grease MP3 is a complex of advanced quality grease for general lubricants of parts and equipment. This product is made of advanced components and special additives that inhibit corrosion and oxidation. It boosts the life of the grease service and protects the surfaces.

This product is applicable for use in bearings, joints, passenger cars, light trucks, agriculture equipment, off road equipment, and many other universal applications.

Features & Benefits

- Has powerful resistance against water even in very humid climates as it maintains a lubricating film.
- Stable mechanically to ensure best operation.
- Has powerful stability to shear and vibration.
- Multi-purpose with excellent mechanical and oxidation stability.

TYPICAL CHARACTERISTICS

| Characteristic | Test Method | Lithium MP3 |
|--|--------------|--------------|
| NLGI Grade | | 3 |
| Appearance | | Brown Yellow |
| Worked, 60 Strokes | ASTM D217 | 240 |
| Worked, 10,000 Strokes | ASTM D217 | 242 |
| Dropping Point, oC | ASTM D2265 | >188 |
| Timken EP Test, OK Load, lbs | ASTM D .2509 | 15 |
| Weld Load. Kg | | 180 |
| Load Wear, Kg | | 28 |
| Water Washout Test, % wt Loss @80 oC | ASTM D 1264 | 5 |
| Oxidation Stability,100 hr.psi loss @ 80oC | ASTM D942 | 5 |
| Viscosity @ 40 oC, cS | ASTM D445 | 100 |
| Viscosity @ 100 oC, cSt | ASTM D445 | >11 |
